GO! GO! ROBOTO!

Build your very own robot and take it with you wherever you go. In fact, why not build a whole army of robots with your friends and create a rad robot universe where everyone speaks in robot voice?

INSTRUCTIONS:

1. Cut on the dotted lines or ask your parents for help. (Don't forget the 4 slits A,B,C and D).
2. Fold on the solid lines.
3. Tape the tabs to form robot head and body.
4. Insert matching letters into the appropriate slits on Arms and Neck.
